PROFESSIONAL PROFILE

"Undergraduate student in Computer Engineering at the State University of Maranhão, where I am developing the necessary skills for the workforce. I don't limit myself to just the university; I take additional courses and seek learning opportunities outside of it. I participate in all possible extracurricular programs in order to acquire knowledge. As a result, I have knowledge of tools like the Office suite and some Adobe software."

EXPERIENCE

Agroecology Technology Laboratory

Database Developer • Nov 2022 – 2024

- I led the team in problem-solving within the programs and coordinated activities for each member to execute their tasks according to delivery demands.
- I, along with the team, created a fully interactive and intuitive database capable of receiving species and soil analyses and cataloging them based on the provided statistics.
- I developed a website for accessing the database using HTML5 and CSS3.

Maranhense Institute of Socioeconomic and Cartographic Studies

Full-Stack Developer • March 2024 - Present

- I develop the application and the database, with expertise in the necessary languages.
- I am part of the website remodeling and its integration with new technologies.
- I perform maintenance on everything that was developed during the project.

ACADEMIC EDUCATION

Computer Engineering

State University of Maranhão • 2022–2026

WHY HIRE ME

I am someone who takes pleasure in learning and teaching, and I believe in the exchange of experiences and personal growth through that exchange. In addition to creative ideas, hard work, and knowledge, I offer complete dedication to the employer to leave a good impression, regardless of the position, task, or level of difficulty. This way, I can achieve my personal goal of personal development.
